

Cindy Stovall-CPMSM, Director – Medical Staff Services Cameron Memorial Community Hospital

I have been in Medical Staff Services for 15 years in an independent Critical Access Hospital, starting as a Credentialing Assistant and am now the Director. While our hospital is small, we credential approximately 325 providers among many specialties.

Prior to working in healthcare MSS office, I was in Human Resources for a manufacturing facility.

I have two grown children and the most adorable grandkids you will ever see. (I might be biased)

I have been a NAMSS and INAMSS member for several years and if I am elected as Secretary, I look forward to the opportunity to serve this wonderful group!
