

Hello. My name is Misty Seibert. I am originally from Southern IL, but better education & employment opportunities transplanted me to Southern IN. After many years of working, I enrolled at IUPUI in 2016. I graduated with a Bachelor's in Health & Rehabilitation Sciences. I joined Deaconess Hospital in 2001 as an office assistant. I have been in the credentialing & privileging world for the last seven years. And, currently, I am the Manager of the Medical Staff Office at Deaconess Hospital. In March 2022, I obtained my CPCS; in July, I will test for the CPMSM. Overall, I love being the "go-to" person for my teams and staff at other Deaconess-affiliated facilities. The constant change in our industry poses all sorts of challenges. I embrace the challenges and the opportunity to be better.

I have been married to my best friend, Eddie, for 11 years. We live about 1 hour from Evansville on 20 acres in the middle of the woods. It is our daily getaway from the hustle of life. We have three dogs and two potbelly pigs. They are my life. I love my fur babies just like real children. I enjoy spending time with family and friends. I am devoted to serving at our church. To relax, I like to sit outside, listen to nature, and watch the ripples on our lake.

I look forward to the opportunity to serve alongside amazing INAMSS leadership; and, share my knowledge and experiences to our organization members.
